Most Prosperous Condition.

The Clay City Graded School is in one of the most prosperous conditions that it has ever been since the administration of Prof. C. W. Campbell began, having an enrollment of 166, and a general average of 130. The Principal's room has reached the maximum during the past three years, having at present 38 in actual attendance.

The second term of this progressive school will be opened January 1, 1907, and will receive all students who desire a better education or prepare for State and County examinations.

Should n't Let Christmas Pass.

While the trusts by extortion increase living expenses, there is no economy in bachelorhood. From an economic point of view, it is far easier to get along with a wife than without one. An old bachelor, who can prosper in this monopoly ruled age, is a bird whether he can exhibit any pinfeathers or not.

The Kentucky Postmasters' Association, consisting of the first, second and third-class postmasters of the State was organized in Louisville Tuesday.

The Clay City Canning Company.

At a meeting of representative business men in this city Saturday night it was decided to incorporate a company for the purpose of erecting and operating a canning factory in this city. The capital stock will be \$10,000 all of which must be subscribed before the company can begin business. The greatest amount of indebtedness the company at any time can acquire is \$10,000. The name of the new corporation will be Clay City Canning Company.

All the stock must be sold by April 1st when building on the new factory will begin. The plant will have a capacity of 5,000 cans per day, and will be ready to handle the blackberry crop July 1st next.

To make the enterprise a success all the stock must be sold, and to sell the stock everyone must help. The stock will be issued in \$10 shares which puts it in the reach all.

Don't Forget It.

"Every dollar spent in Powell county is a Powell county dollar. Don't forget it.

"Every dollar sent away is a dollar lost to Powell county. Don't forget it.

"Powell county dollars mean Powell county prosperity. Don't forget it.

"Powell county prosperity is our business. It is up to us. Don't forget it.

"The catalogue houses never return a dollar to Powell county. Don't forget it.

"A catalogue house never fixed a road or built a bridge in Powell county. Don't forget it.

"A catalogue house never built a building or paid a cent of tax in Powell county. Don't forget it.

"The penny wise policy never made a man rich. Don't forget it. It will make him the secret laughing stock of his neighbors though. Don't forget that.

"Everybody knows who is building up Powell county with good old Powell county dollars; and who is building up some other county with Powell county dollars—it cannot be kept a secret. Don't forget it."

Never go away nor send away from home to buy anything and, if you do, you will lose 99 times out of 100. Don't forget it.

The annual report of Fourth Assistant Postmaster General DeGraw, shows the number of rural free delivery routes in the State of Kentucky to be 639. During the past year 1,234 petitions were referred to him from the State. Four hundred and fifty-one were adversely reported upon. Four routes were discontinued in the State. One hundred and forty cases are pending.

married life.

A small, delicate, slight, nervous, sensitive woman, who would faint away at an empty mouse-trap, will go through the shopping district in from two to seven hours, and come out refreshed and sustained by an unfaltering trust, if her husband's credit is good, while that gentleman at the end of forty-five minutes has to be carried home on a stretcher. Some women are born shoppers, others achieve it, but not one of them has it thrust upon her.

Shopping is extensively practised on week days, beginning on Monday with a rush and ending on Saturday in time for the opera. It promotes industry. Without it married men would have time to rest.—The January Delineator.

Disbarred From Practice.

Judge W. O. Harris has handed down his decision in the disbarment proceedings against Judge W. M. Beckner. He is suspended from the practice of law for two years, and says the

age of Judge Beckner and his previous good standing only prevents a more severe punishment. Beckner appeals the case.

Tuesday Greenup county voted on local option and went dry by a majority of 350. On the same day a vote was taken in Pendleton county which resulted in a victory for local option by 662. The city of Springfield has also gone dry by a nice majority.

By consent of both parents, Morton Vice, a fifteen year old boy, and Annie Houseman, a little girl small to her age, were married in Bath County Tuesday.

Courtship of 44 Years.

In Trimble County, Miss Ophelia Humphrey and W. D. Coffin were married. Each of the newly wedded pair is sixty-three years old. They began this courtship forty-four years ago, but the young girl refused to marry at that time, and said she would not marry so long as her mother lived. Coffin in turn agreed to wait until her mother died, which has been forty-four years. They both remained true to their promise.

The Purpose of Advertising.

The purpose of store advertising is not merely to sell goods, but to sell more goods—to make friends, build up a patronage that will not only stick but grow. Newspapers reach the greatest number of people in the immediate vicinity in the most natural way, at the least expense, and they are therefore the best of all mediums for stores. In a newspaper you follow the lines of least resistance—you follow with the stream—you talk to an audience already assembled, to the people who want to read—their mental cosmos is right—they are on your wire, and they won't ring off if you hold their interest. Attraction is the basis of all advertising—the store is the sun, the customers the planets that revolve around it.

For Sale.

An Incandescent Lighting Machine, latest improved model, for 8 arc lights, 3 gallon tank, complete as good as new. Will sell cheap. Address M. Harris, Winchester, Ky.

Barred from School.

The Board of Health at Portsmouth, Ohio, has created somewhat of a sensation by adopting resolutions barring consumptive children from attending school. Every child will be compelled to undergo rigid examination, and if a trace of pulmonary trouble is discovered the child will be denied the privilege of attending school. The Board started a general crusade against the white plague. The action is causing widespread discussing.

How It Works at Other Places.

Savannah, (Mo.) now has a factory to make agricultural implements. One industry brings another. We started with a canning factory. It proved a success. The company more than doubled its capacity after the first year. Then came the stove factory. It has met with wonderful success. It has already increased its capital to \$150,000 00, and is employing a hundred or more hands. To our canning factory may be given the credit for the increase in new factories.

The success of the canning factory gave our people confidence in manufacturing enterprises. Our canning factory employs from 75 to 150 hands while running.

Our factory packed tomatoes at a cost of 55 cents a dozen. They can earn at a cost of 40 to 45 cents a dozen. They could have sold ten times as many goods as they put up; the demand has kept pace with the increased output. All the armies and navies of the world have become markets for canned goods. All the mining countries of the world have become large consumers of canned vegetables. They are compelled to use vegetables to preserve health. Every section of the world is yearly increasing its consumption of canned vegetables. All the vegetables that can be canned must be grown in a limited belt. Every new country on the globe to be hereafter settled must get its canned goods from that belt as the vegetables must be canned where grown. Missouri holds the medals of the World's Fair at Chicago in 1893 for canned tomatoes.

Some of the farmers here raised 700 bushels of tomatoes to the acre and sold them to the factory at 30 cents a bushel, making them \$210 an acre for their tomatoes. Sam Seaman and Claude R. Bowman got \$37 an acre for their sweet corn delivered at their factory in the husk. Pumpkins will pay as well as corn and tomatoes. —Savannah, Missouri Reporter.

If a canning factory would do half as much for Clay City as it has done for Savannah, Mo., it will pay us over and over again to invest \$10,000 00 in a canning plant. That is the proposition now up to us. Let everybody help.

Many are conjecturing on the political situation in the race for State officers next year, assuming the danger of Republican success. Because the Republicans gained three new Congressmen in Kentucky this fall does not count much for success in the State next fall. The recent vote

in the State on the whole is anything but favorable for the Republicans. The total vote of that party was only 121,102 while the Democratic vote was 155,820 which shows the handsome Democratic majority in the State of 29,658. In this election we see a great deal of encouragement for the Democrats if we did lose three Congressmen.

As long as a man agrees with you, you think him a good fellow. When he antagonizes your ideas and doctrines, you don't like him so well. As long as the farmer went along plowing, hoeing and harvesting, and let the professional politicians run the politics, and the monopolies run the business, nobody called him a crank or an ignoramus. But when he took a hand in the politics and began to question the right of others to rob him, the dogs of war were let loose on him.

Some leading Republicans of the State are starting a boom for ex-Governor W. O. Bradley for Governor again.

UNITED STATES COURT OF CLAIMS
The Publishers of Webster's International Dictionary allege that it is in fact the popular dictionary thoroughly revised in every part, and is the best of its kind, with the purpose of adapting it to meet the larger and severer requirements of another generation.

We are of the opinion that this allegation is clearly and accurately described, and that it has been accomplished, and the suit that has been reached. The dictionary, it is now found, has been thoroughly revised in every detail, has been corrected in every part, and is admirably adapted to meet the larger and severer requirements of a generation which demands more of popular education. It is provided that any generation that the world has ever known.

It is perhaps needless to add that we refer to the dictionary in our judicial work as of the highest authority in accuracy of definition; and that in the future the past it will be the source of constant reference.
